

Overview

All 360° VR Field Trips in One Place. With the VictoryXR: Global Traveler app, students can travel the globe to exotic locations like The Great Wall of China, visit the majesty of Iceland, stand in the presence of the Redwoods of California, and experience over 100 additional destinations (See full list on the next page). In 360° virtual reality, travelers will be fully immersed within the location they are visiting.

Constantly Growing Library

New 360° field trips in exotic, remote, and/or historic locations are added monthly and are FREE to access with a VXRWeb subscription.

Elements

- 126+ global field trips that stream or download to your VR headset.
- Learn in English, Spanish, German, French or Arabic; coming soon in Mandarin and Hindi.
- Field trips are led by world-class teachers, including award-winning science teacher Wendy Martin..
- The majority of field trips are between 6 and 10 minutes long and include a minimum of five locations within each geographical trip.
