

# International Baccalaureate Lab

## Overview:

Embark on a thrilling and educational journey into the world of biochemistry with an immersive VR experience. Explore the fascinating realm of enzymes, the molecular superheroes that drive countless biochemical reactions within living organisms.

As students don their VR headsets, they find themselves transported to a futuristic virtual laboratory, equipped with advanced molecular visualization tools. The vivid and interactive models provide an unparalleled opportunity to delve deep into the structures and functions of enzymes, unlocking the secrets of these catalysts of life.

## How to Find the Experience

Once logged in on the VXRLabs homepage, navigate to the "Subjects" tab, select the "International Baccalaureate" option from the left-side menu, then select the "IB Biology" option, then select the "Enzymes" option.

## IB Course Offerings and Selection Guidance
