

Free Topics

Overview:

Make your learning an epic adventure with The King's Labyrinth module! Here you must not only tackle the dizzying corridors of the magical Egyptian-themed maze, but you must prove your knowledge of different core subjects including math, history, biology, and more! But be careful to take your time because with one wrong pull of a lever or step on the wrong pressure plate and you'll be facing the labyrinth's devious traps like flame throwers and swinging axes. Can you conquer the King's Labyrinth?

How to Find the Experience

Once you have logged into the VXRLabs home page, navigate to "Subjects" tab, then to "The King's Labyrinth" in the left-side menu. From here, select the "Free Topics" module.

Gameplay Instructions

For this exercise, you will be trying to reach the end of the King's Labyrinth by successfully answering the provided questions as you try to navigate through the maze. Sometimes you may have to pull the lever for the corresponding answer and at other times you may need to stand on the right pressure plate. Also be aware that the answers and the questions may not always be right next to each other.

Within this exercise you can choose between the following topics:

1. Math (Simple)
2. Math (Advanced)
3. Biology (Simple)
4. Biology (Advanced)
5. Pop Culture (80's)
6. Pop Culture (90's)
7. Pop Culture (00's)
